

## There may still be time for Attribut

If you are finding problem grassweeds such as couch or bromes in wheat crops, it may not be too late to apply Attribut - but hurry as time is running short.

Attribut is an unusual ALS inhibitor with both upward and downward systemic movement. It also offers residual activity.

Attribut offers a useful weed spectrum, many of which are not on the label.

- "It does more than it says on the tin" !

### Summary

There may still be time to use Attribut to control various grass weeds and some problem broad leaf weeds, some of which are not listed on the label.

Grassweeds	Level of control	Timing
Couch	Excellent	Grasses should be actively growing at time of treatment and between the 2 true leaf stage and first node detectable stage (GS 12-31).
Bromes	Excellent	
Wild oats, Ryegrass, rough meadow grass and blackgrass	MS/MR	
Broad leaf weeds	Level of control	Timing
OS rape vols, runch, charlock, penny cress	S	Up to 4 lf
Cleavers, mayweed, chickweed, fathen, forget-me-not, deadnettle, groundsel,	MS	

**Crop Timing :** Up to 3<sup>rd</sup> node  
**Grass Weed Timing :** Up to 1<sup>st</sup> node stage  
**Rate of use :** 100 g of product per hectare.  
**Following Crops :** Only crops of winter wheat, winter barley and field beans can be sown in the autumn following application of Attribut in the spring of the same calendar year. Any spring sown crop may be grown on land treated with Attribut in the previous calendar year.

### Best Use Guidelines

	Rye, Soft and meadow brome	Sterile and great bromes	Couch
<b>Dose rate</b>	100g/ha	100g/ha	100g/ha
<b>Adjuvant</b>	Yes. Methylated rape oil or similar	Yes. Methylated rape oil or similar	No
<b>Latest time of application</b>	GS33 of crop. GS31 of grassweed	GS33 of crop. GS31 of grassweed	GS33 of crop. GS31 of grassweed

**Sequences :** Attribut must not be used in sequence or mixture with any other ALS inhibitor (including sulfonylureas) containing product.

**Tank Mixes :** Attribut + oil is physically compatible with any one of the following tank-mix partners:

**Do not mix Attribut with any plant growth regulator.**

Fungicides		Herbicides	Micronutrients
Amistar	Landmark	2,4 D	Headland Mn 15%
Proline	Mantra	MCPA	Headland Jett
Caramba	Proline + chlorothalonil	Mecoprop-p	Headland
Prosaro	Centaur + chlorothalonil	Oxytril CM	Respond
Fandango	Prosaro + chlorothalonil	Starane 2	Headland Spirit
Folicur	Fandango + chlorothalonil	Swipe P	
Swift	Sahara + chlorothalonil		
Fortress	Helix + chlorothalonil		
Helix	Opus + chlorothalonil		
Capture	Swift + Unix
